CONSTANT

A large advertisement for Inn Bar & Restaurant. The background is a vibrant, colorful display of the restaurant's interior. The text 'INN BAR' is at the top. Below it, '堂食' (Dine-in) is written in large, stylized characters. The main text 'DINE IN WE ARE OPEN' is in large, bold, yellow letters. Below that, '营业中' (Open) is written in large, stylized characters. The operating hours are listed: '12PM - 10PM (MON - FRI, except public holiday)' and '2PM to 10PM (SAT & SUN)' for SOLARIS, and '2PM - 10PM (Daily)' for ARKADIA.

SUSTAINABLE DEVELOPMENT GOAL 13

Climate Action

According to the United Nations, approximately 60% of all countries affected by extreme weather events in the past two decades are in the Asia-Pacific.

Due to climate change, between 2000 and 2012, deaths resulting from dengue fever for those aged 15-29 increased by 150% in the Western Pacific

Poverty increase due to climate change

Poor people are forced to sell tangible assets to cope with climate related devastation

Leads to less investment in health, nutrition, and education, possibly leading to long-term poverty

Every year in the last decade, there have been 3.3 million deaths on average from the effects of outdoor air pollution.

The top four countries in which these outdoor air-pollution deaths occur are in Asia:

- » China
- » India
- » Pakistan
- » Bangladesh

Source: Sustainable Development Agenda & Young People: Recognising Voices and Claiming Rights (2017)

SUSTAINABLE DEVELOPMENT GOAL 3

Good health and well-being

Adolescent fertility rates and adolescent births

99% of maternal deaths occur in developing countries and almost a third of these occur in *South Asia*

About 4.6 million women in Asia (excluding *Eastern Asia*) are treated each year for complications from unsafe abortion

Globally, 20% of adolescents and youth experience mental health conditions – those living in low income countries make up **85-90%** of this group – one million people die from suicide each year in South-East Asia

Source: Sustainable Development Agenda & Young People: Recognising Voices and Claiming Rights (2017)

SUSTAINABLE DEVELOPMENT GOAL 5

Gender Equality

Globally women do **2.6 times** more domestic work than men

Women perform **66%** of the world's work, produce **50%** of the food, & yet earn only **10%** of the income & **1%** of the property

Almost one in five girls (17%) are married before the age of 15

45% of all women in South Asia aged 20-24 reported being married before the age of 18

52% of girls and women between 15 and 49 years of age who are married or in union make their own decisions about consensual sexual relations and use of contraceptives and health services.

Source: Sustainable Development Agenda & Young People: Recognising Voices and Claiming Rights (2017)

DENGAR. Apabila pemandiri bersedia untuk kongsi perasaan atau pengalaman mereka dengan anda, dengar tanpa menyampuk, tanpa mengkritik mereka, dan tanpa menyuar "solusinya" pengalaman mereka.

Women's Aid Organisation | 2020

15

INGATAN PENTING

1. BERKABAR DENGAN PEMANDIRI DAN JANGAN MENYAMPAIKAN MEREKA.

Sebagai kakitangan kesihatan, anda adalah orang yang dipercayai. Jika anda berkabar dengan orang lain tentang pengalaman pemandiri, ia boleh menjadi masalah untuk pemandiri. Oleh itu, jangan berkabar dengan orang lain tentang pengalaman pemandiri.

2. GUNA TENTERAMAN PERASAAN PEMANDIRI.

Sebagai kakitangan kesihatan, anda adalah orang yang dipercayai. Jika anda menggunakan kata-kata yang tidak tepat, ia boleh menjadi masalah untuk pemandiri. Oleh itu, gunakan kata-kata yang tepat untuk menggambarkan pengalaman pemandiri.

3. JIKA ANDA HORMATI KEPERIBENDIAAN PEMANDIRI.

Sebagai kakitangan kesihatan, anda adalah orang yang dipercayai. Jika anda menghormati peribendiaan pemandiri, ia boleh menjadi masalah untuk pemandiri. Oleh itu, jangan menghormati peribendiaan pemandiri.

Women's Aid Organisation | 2020

16

PRINSIP 2: KENDALI

Pertolongan Cemas Psikologi atau "Psychological First Aid (PFA)"

Pertolongan cemas psikologi merupakan bantuan dari segi emosi dan psikologi yang boleh diberikan kepada orang yang mengalami trauma yang membolehkan mereka menerima bantuan. Ia bukan kaunseling profesional atau cara memulakan pemandiri untuk kongsi pengalaman jika mereka tidak bersedia.

MENDAKU KITA MENGUNAKAN PFA?

- BERTUTUR DENGAN ORANG YANG TERSEKUTU
- MENYEMBUH KEPERIBENDIAAN ORANG
- MENYALAKAN DATA TINDAK TANGGAL ORANG YANG TERSEKUTU
- MENYALAKAN DATA TINDAK TANGGAL ORANG YANG TERSEKUTU

Women's Aid Organisation | 2020

17

Buku ini untuk siapa?

Orang awam yang mahu tahu bagaimana untuk melindungi komuniti setempat mereka lebih selamat.

Ketua komuniti yang ingin meningkatkan kesedaran tentang keganasan dan cara pencegahannya.

Pemandiri keganasan yang ingin meningkatkan kesedaran orang lain tentang isu ini.

Pekerja di agensi atau pihak yang memberi perlindungan keselamatan dan bantuan untuk pemandiri keganasan, terutamanya wanita dan kanak-kanak.

Apakah itu pemandiri?

Pemandiri ("victim") adalah seseorang yang telah mengalami keganasan.

Kemungkinan pemandiri akan mengalami keganasan jika mereka tidak mengambil tindakan untuk melindungi diri mereka.

Orang awam yang mahu tahu bagaimana untuk melindungi komuniti setempat mereka lebih selamat.

Ketua komuniti yang ingin meningkatkan kesedaran tentang keganasan dan cara pencegahannya.

Pemandiri keganasan yang ingin meningkatkan kesedaran orang lain tentang isu ini.

Pekerja di agensi atau pihak yang memberi perlindungan keselamatan dan bantuan untuk pemandiri keganasan, terutamanya wanita dan kanak-kanak.

Orang awam yang mahu tahu bagaimana untuk melindungi komuniti setempat mereka lebih selamat.

Ketua komuniti yang ingin meningkatkan kesedaran tentang keganasan dan cara pencegahannya.

Pemandiri keganasan yang ingin meningkatkan kesedaran orang lain tentang isu ini.

Pekerja di agensi atau pihak yang memberi perlindungan keselamatan dan bantuan untuk pemandiri keganasan, terutamanya wanita dan kanak-kanak.

Orang awam yang mahu tahu bagaimana untuk melindungi komuniti setempat mereka lebih selamat.

Ketua komuniti yang ingin meningkatkan kesedaran tentang keganasan dan cara pencegahannya.

Pemandiri keganasan yang ingin meningkatkan kesedaran orang lain tentang isu ini.

Pekerja di agensi atau pihak yang memberi perlindungan keselamatan dan bantuan untuk pemandiri keganasan, terutamanya wanita dan kanak-kanak.

Fitihah	Mengalakkan kesedaran fitihah atau meredakan seseorang dengan ugutan kesedaran fitihah
Emosi	Mendukung perasaan seseorang, melakukan yang membuat seseorang itu marah, sedih, dan lain-lain
Sosial	Mengalakkan orang yang tidak bersedia untuk berjumpa dengan keluarga atau kawan
Kewangan	Mendukung / menggalakkan orang yang mengambil alih orang lain secara paksaan
Paksaan	Mendukung seseorang melakukan sesuatu tanpa kesediaan (paksaan, ancaman, atau dalu), mendukung seseorang yang tidak bersedia untuk mereka
Mengalakkan	Mendukung seseorang melakukan sesuatu tanpa kesediaan (paksaan, ancaman, atau dalu), mendukung seseorang yang tidak bersedia untuk mereka
Sekelek	Mendukung seseorang untuk melakukan hubungan seksual atau apa-apa hubungan seksual yang tidak bersedia untuk mereka

Apakah itu prinsip 3K?

Prinsip 3K adalah tiga langkah yang boleh dipelajari dan dikenali oleh semua lapisan masyarakat yang boleh menolong mereka lebih tahu tentang cara menangani isu keganasan dalam komuniti setempat (contoh: dalam rumah dan keluarga sendiri, dengan jiran-jiran, kawan-kawan, di kawasan awam)

- 1 KENALI**
Keganasan Rumahtangga
- 2 KENDALI**
Cara Tindakbalas
- 3 KAITKAN**
Kepada sistem sokongan yang sesuai

Keganasan Rumahtangga adalah satu **JENAYAH!**

Bagaimana kita menyokong **PEMANDIRI?**

Ketahui hak dan saluran perlindungan untuk **PEMANDIRI.**

Buku Kecil Komuniti Selamat akan menjelaskan Prinsip 3K dengan lebih terperinci. Buku ini juga boleh digunakan sebagai bahan rujukan jika anda mahu kongsi atau bincangkan maklumat yang diuraikan bersama orang lain.

Determine the best solution for every problem encountered

UI/UX Analysis: OMA HSE On The Go

Dated User Interfaces

Unstructured design makes it hard for users to **navigate**, leading to **inefficient and frustrating interactions**.

Varied colors and disorganised layout of the app have led to navigation difficulties and a poor user experience.

The Problem

The excessive use of varied colors and disorganised layout in the mobile app's interface has led to user difficulties in navigation and a diminished overall user experience. **The unstructured design results in a cluttered and overwhelming interface, which can lead to frustration and decreased user satisfaction.**

The Challenge

How can we revamp the UI to achieve a more organized, simplified design that supports seamless user interactions and enhances functionality?

The Opportunity

To address the issue of an overly colourful and unstructured mobile app UI, we propose a redesign focused on achieving **consistency, structure, and clarity.**

The new design will employ a **harmonious colour palette and a well-organised layout to enhance user flow and ease of navigation for operators.**

Cleaner UI data to display
overview statistics

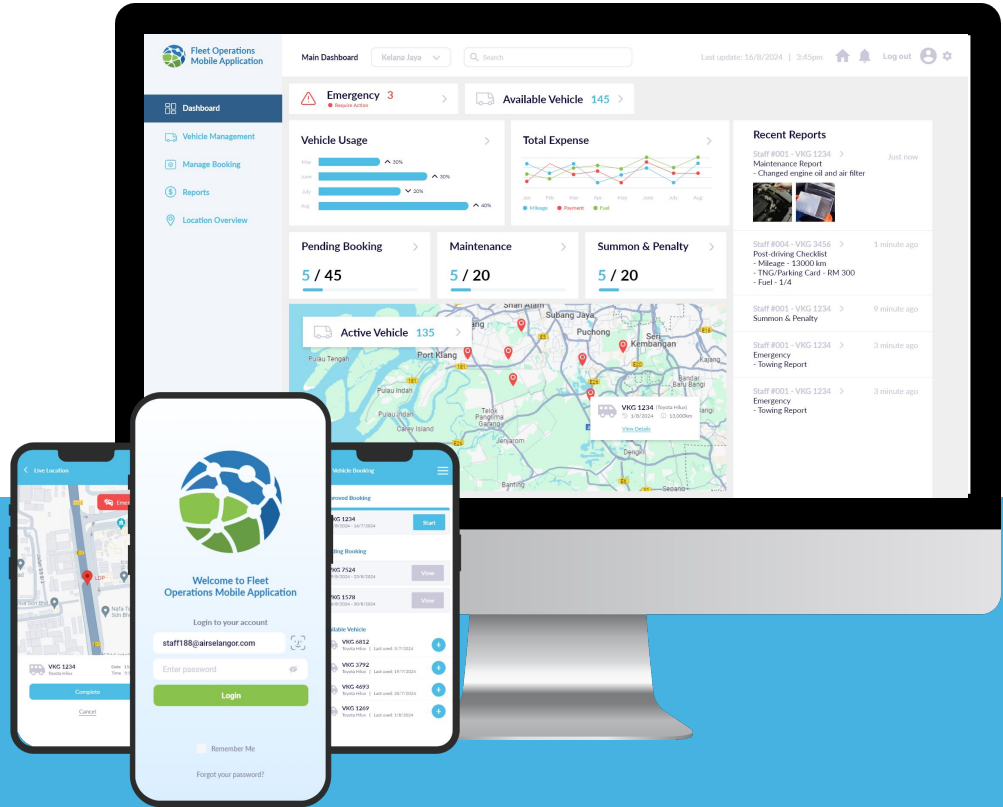

More organized,
consistent layout without
unnecessary icons for
clarity.

Introducing the new HSE On The Go

Introducing the New OMA Fleet System Mobile App & Web Dashboard

The Problem

The current manual approach is **time-consuming, hard to track, and lacks sufficient controls for vehicle maintenance.**

The Challenge

How can we create a system that improves our current process by allowing **quick and easy vehicle bookings, automating maintenance scheduling, and tracking the last use, all using a mobile app and an integrated dashboard?**

The Opportunity

Officers will have the ability to **approve vehicle bookings, generate daily, monthly, and annual reports, and assign vehicles to operators for maintenance.** Operators can easily book their vehicles, stay informed about when their vehicles need servicing, and update HQ without the need for manual reporting.

Book vehicles independently

Update vehicle status

Effortlessly monitor when vehicles require maintenance

Generate weekly, monthly reports

(Admin) User View

- Create new vehicles
- Manage booking of vehicles
- Assign vehicles to be serviced
- Generate report
- Track vehicles

System View

- Location of vehicle
- Vehicle Reports
- Vehicle Management

OMA Fleet System Personas

Reports are provided based on
the different users and is
displayed on a dashboard.

(Operator) User View

- Request to book vehicle
- Report of vehicle details & Checklist (Mileage, Summons, Penalties, Fuel, Accidents/Towing)
- In charge of car service/maintenance

System View

- Approved Vehicle
- Assigned Vehicle for Service
- Vehicle Checklist
- Vehicle Status Updates

OMA Fleet System

Region's Fleet Officer Flow

Azman's Journey

He logs in to the web dashboard, selects his location region before viewing list of vehicles booked for next week.

- He's able to view available vehicles & locate active vehicles of the day on his dashboard in real time.
- He's able to reassign new vehicles to operators who could not use the vehicle due to small accidents/towing
- He's able to see overused vehicles & vehicles due for maintenance
- He's able to create new vehicle, update status report for current/new vehicle.

He can request for maintenance from the direct operators of the region for vehicles via dashboard.

He can view reports & generate reports based on region, mileage, longest duration, frequent users, penalties/summons daily, monthly or annually for record use.

He can view list of requested vehicles, to approve or decline the booking request. He must provide reason for declining.

He can view reports for each vehicle returned and approve reports of each vehicle before it can be available for the other operators to book.

The admin can use **"Remember Me"** to simplify future logins by eliminating the need to re-enter credentials each time.

Welcome to Fleet

The background shows a 'Vehicle List' table with columns for selection, plate number, model, mileage, TNG/Parking Card, location, last used date, and status. The modal form includes the following fields:

- Plate Number:** Input field with 'VKG 1234' entered.
- Vehicle Model:** Input field with 'Toyota Hilux' entered.
- Milage:** Input field with '400 km' entered.
- TNG/Parking Card:** Input field with 'RM 300' entered.
- Fuel:** Input field with '2/4' entered.
- Next Service:** Date picker showing '4/10/2024'.
- Location:** Input field with 'Kelana Jaya HQ' entered.
- Region:** Dropdown menu with 'Kelana Jaya' selected.

At the bottom of the modal are 'Save' and 'Cancel' buttons. A blue arrow points from the text 'fill in vehicle details' to the modal form.

This is an overview of all active vehicles. The admin can search and view additional details about each vehicle's status and the operator currently using it.

OMA Fleet System

Region's Fleet Operator Flow

Ishak's Journey

He logs onto the app, select his region and view vehicles approved for the week, and vehicles available for booking. He can see approved vehicles, vehicles available, vehicle maintenance & resubmissions for reject reports.

- If the vehicle is assigned to him for service, he will bring the vehicle for service and update his repair checklist report after.

Once the booking request is approved, he can use his vehicle.

If the booking request is declined, he has to rebook a new vehicle and wait for approval.

Once he is done with the vehicle, he needs to fill in post-checking list & submit feedback & rating of the vehicle.

To book vehicles ahead of time, he must select the vehicle and select the date for approval. This must be done the week before (for scheduled repairs)

He will be notified when his booking is approved.

He needs to fill in a pre-checking list before using the vehicle.

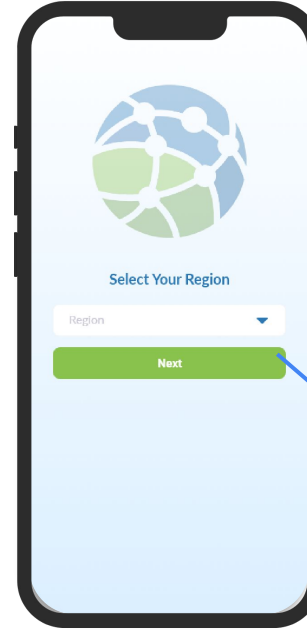

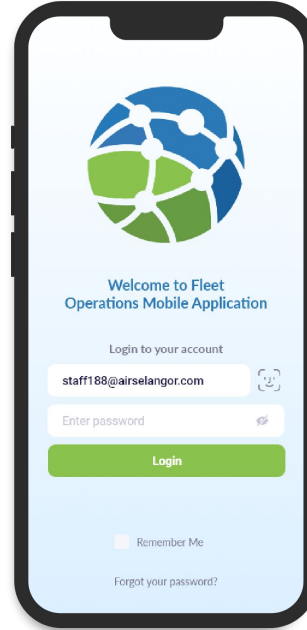

- Summon/Penalties have to be submitted on the app.

- If towing is required, panel vendors used must be submitted on the app for record.

OMA Fleet System

UI Design

The operator will receive a **notification** when the booking is approved. The operator can log in using **Face ID**.

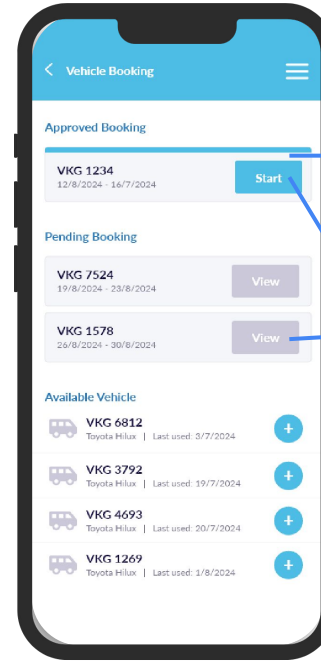

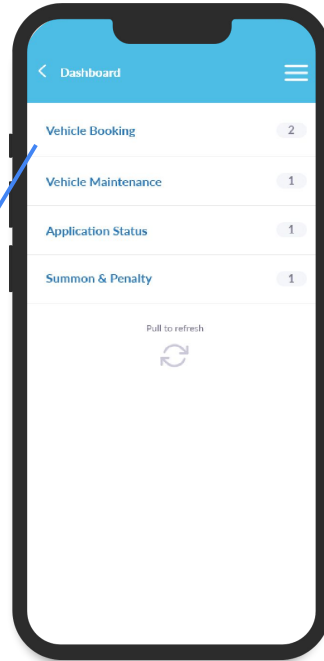

They can **choose** their **region** before accessing the dashboard.

[Visit Prototype on Adobe XD Link](#)

OMA Fleet System

UI Design

The operator can view the **complete list** on the Main Dashboard for **convenient navigation**.

The operator can view the **approved bookings**, **pending bookings** and **available vehicles**. They can start the **assignment for approved bookings**.

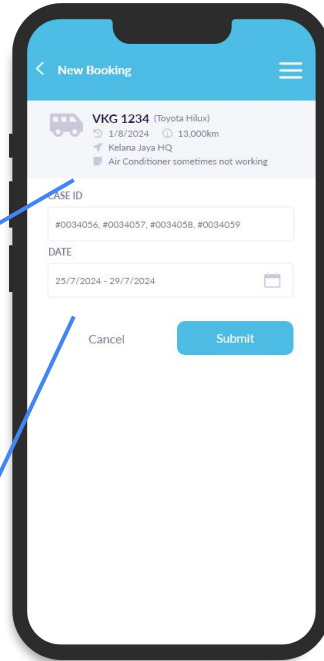

OMA Fleet System

UI Design

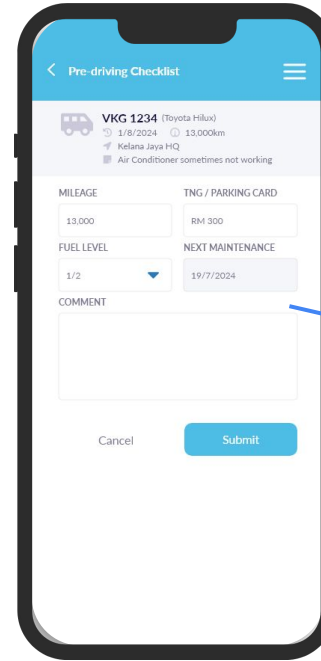

The operator can view the following information for the vehicle

- **Last Used Date**
- **Mileage**
- **Location**
- **Last remarks**

The operator can make a **new booking** for available vehicles and **must fill in the necessary date** to complete the booking.

The 'New Booking' screen displays vehicle details for VKG 1234 (Toyota Hilux), including the date 1/8/2024, mileage 13,000km, location Kelana Jaya HQ, and a remark about the air conditioner. Below this, there is a 'CASE ID' field with a list of IDs (#0034056, #0034057, #0034058, #0034059) and a 'DATE' field with a date range of 25/7/2024 - 29/7/2024. At the bottom are 'Cancel' and 'Submit' buttons.

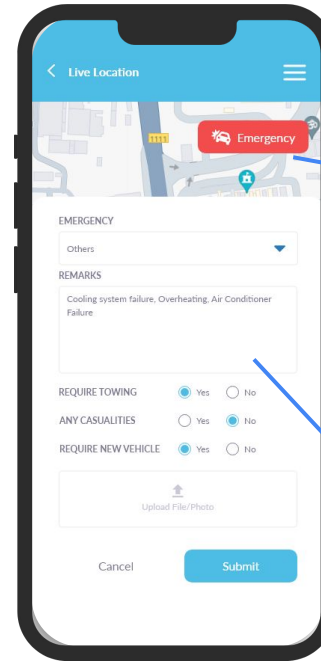

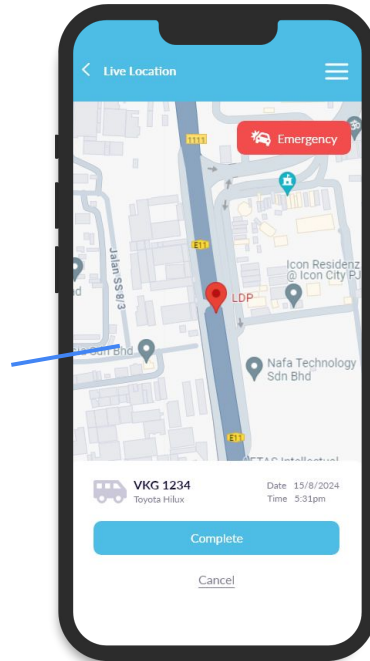

The 'Pre-driving Checklist' screen shows the same vehicle details as the booking screen. It includes input fields for 'MILEAGE' (13,000) and 'TNG / PARKING CARD' (RM 300), a 'FUEL LEVEL' dropdown (1/2), and a 'NEXT MAINTENANCE' date field (19/7/2024). There is also a 'COMMENT' text area. At the bottom are 'Cancel' and 'Submit' buttons.

Once the vehicle is approved, they **need to complete a pre-driving checklist** and **update the information accordingly**.

OMA Fleet System

UI Design

The operator can view the **vehicle's live location**, which updates directly to the web dashboard.

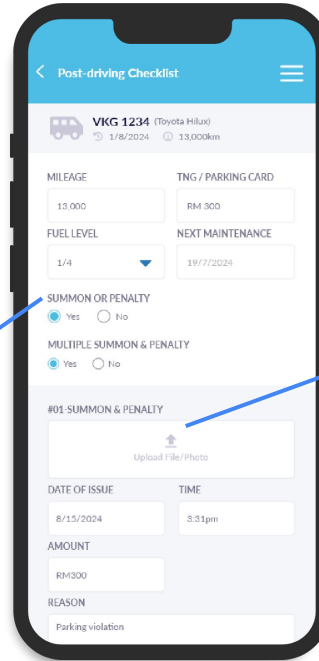

In case of an emergency involving the vehicle, the operator will be able to **submit an emergency request**. The operator will need to **specify the type of emergency, upload a photo or file, and indicate whether towing is required, if there are any casualties, and if a replacement vehicle is needed.**

OMA Fleet System

UI Design

When the operator finishes using the vehicle for the day, they **will need to update the post-driving checklist.**

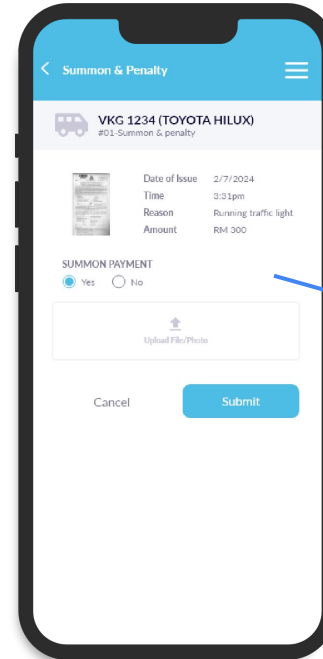

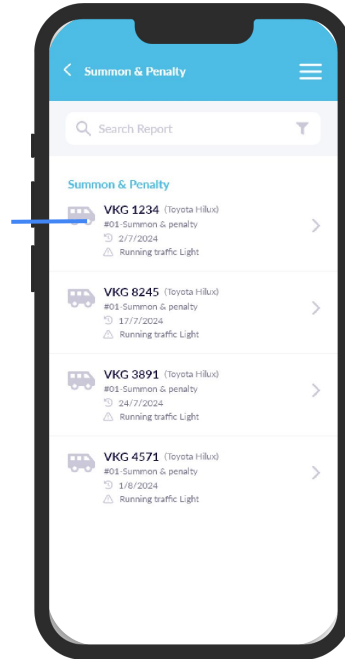

The image shows a smartphone screen displaying a 'Post-driving Checklist' form. The form is titled 'Post-driving Checklist' and includes a back arrow and a menu icon. It contains several sections: 'VEHICLE INFO' with 'VKG 1234 (Toyota Hilux)', '1/6/2024', and '13,000km'; 'MILEAGE' with a text input '13,000'; 'TNG / PARKING CARD' with a text input 'RM 300'; 'FUEL LEVEL' with a dropdown menu showing '1/4'; 'NEXT MAINTENANCE' with a date input '19/7/2024'; 'SUMMON OR PENALTY' with radio buttons for 'Yes' (selected) and 'No'; 'MULTIPLE SUMMON & PENALTY' with radio buttons for 'Yes' (selected) and 'No'; '#01 SUMMON & PENALTY' with an 'Upload File/Photo' button; 'DATE OF ISSUE' with a date input '8/15/2024'; 'TIME' with a time input '8:31pm'; 'AMOUNT' with a text input 'RM300'; and 'REASON' with a text input 'Parking violation'.

The operator can **submit multiple summons and penalties, uploading a file or photo for each and updating the details accordingly.**

OMA Fleet System

UI Design

The operator will be able to **view a list of summons and penalties** and **check the details for resubmission if needed**. The operator can **search** and select a **date range to filter the list**.

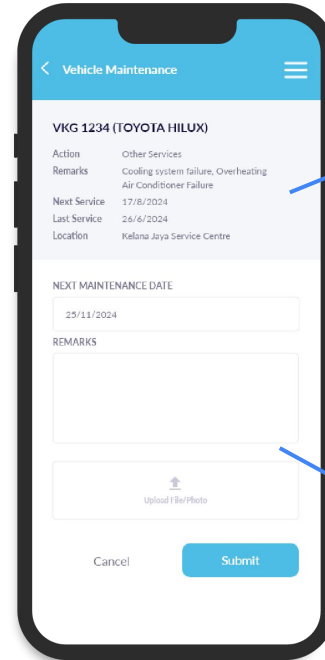

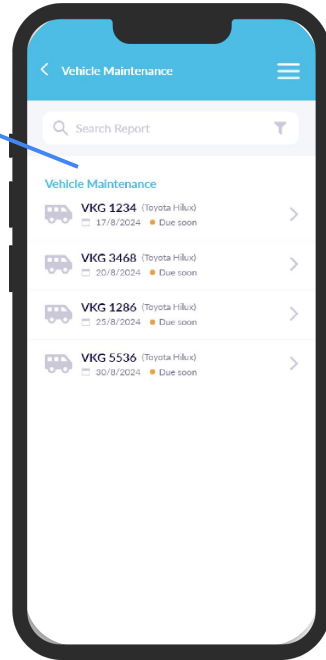

The operator able to **check & update** the details of the submitted summon & penalty

OMA Fleet System

UI Design

When vehicle maintenance is assigned to the operator, they will be **able to view the list of assigned maintenance details.**

The operator can **search** and select a **date range** to **filter the list.**

The operator can check the **details of the assigned vehicle maintenance tasks.**

After completing the vehicle maintenance, the operator will need to update the following information:

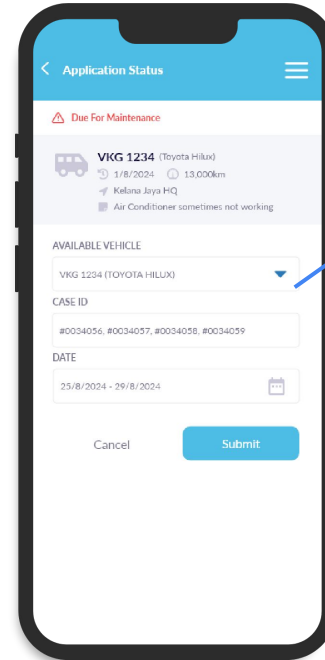

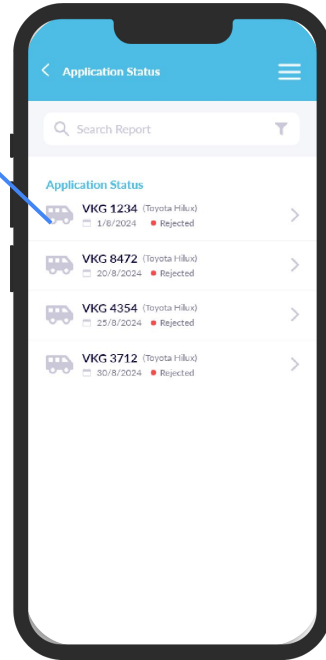

- **Next maintenance date**
- **Remarks**
- **Upload Maintenance documents**

OMA Fleet System

UI Design

When a booking is rejected, the operator can view it in the **application status** and select to view the **reason for rejection**

The operator can **search** and **select a date range** to filter the list.

The operator can **select** an **available vehicle**, fill in the **details**, and **resubmit the request** for a new vehicle.

Event

Bokoo UI/UX App Design

Background

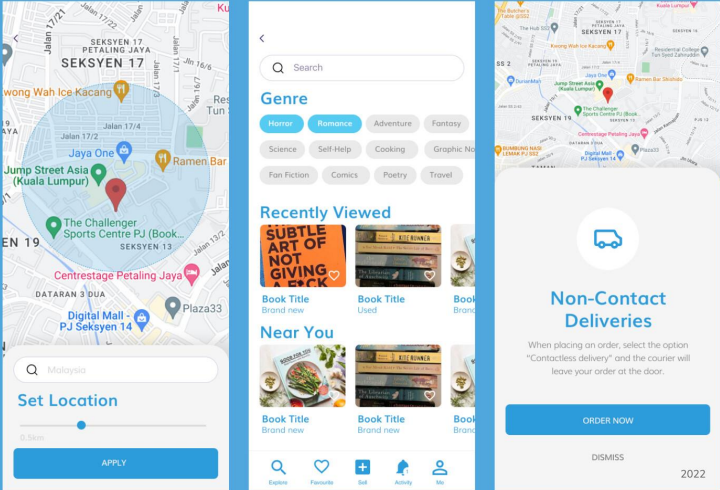

In the past, I used to spend a lot of time reading. I was still able to use the library in college and public libraries, so I could still borrow books there. There were several books that were either impossible to track down or too costly to buy. In addition to this, I have purchased both physical and digital books, and I have also subscribed to audiobook services, even though the latter is not one of the formats that I find most appealing.

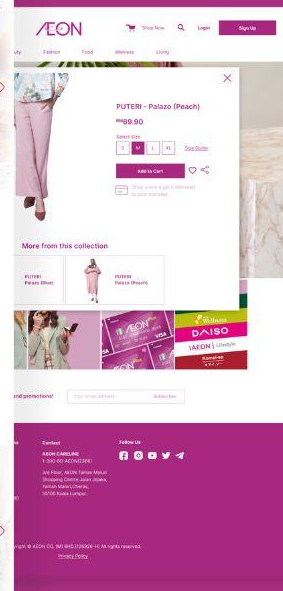

Because I like thrift shopping as well, I sometimes check online for used copies of physical books to buy. Another one of my issues is that I do not have enough room to keep them for an extended period of time.

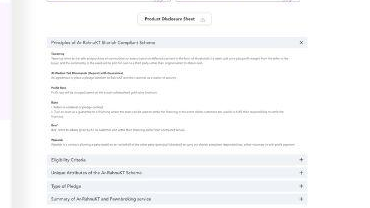

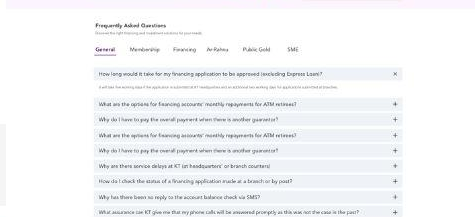

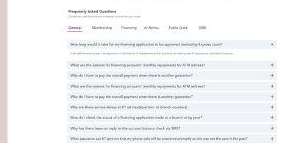

Project Overview

I decided to start this project in order to find a solution to the issue, which in this instance is to construct a platform that will allow book lovers to lend one other their physical books from their personal libraries for a certain amount of time and Bokoo will also make books accessible to everyone.

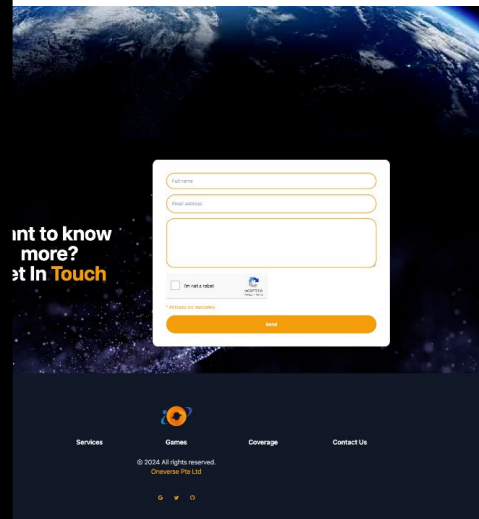

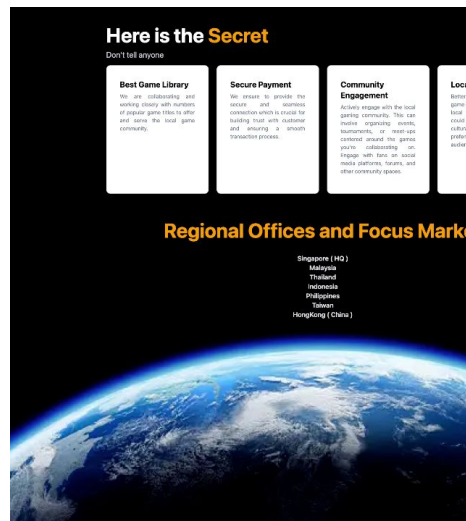

I didn't just stop there; I also incorporated various features that enable anyone who like reading to start their very own book clubs wherever they live. Bokoo is more than just a product; it's also a lifestyle app that connects people who share a love of reading with one another.

Site Revamp (Before)

Microsoft Library

Our collections are now online with content available from any computer, giving you the ability to access the best price available.

Recycle Payment

We continue to provide the secure and convenient payment method to assist our customers with their transaction process.

Community Engagement

We actively engage with the wine growing community. Through various organizing events, tournaments, e-newsletters, content, and exciting games, we're collecting on the next vintage difference and making a difference. Finally, and other community activities.

Localisation

We currently are interested in the local games industry and excited to expand a local market. We have currently only launched and begun the publication of the first local titles.

Our Partners

Our partners, consisting **partner developers, publishers, payment partners, and regions of strategic interests**, come together to enhance innovation, connectivity, engagement, globalising their and unique global business.

SELIA

Advancing Road Maintenance: SELIA's CRMIS, OE and RTS Solutions for Enhanced Efficiency

Challenges

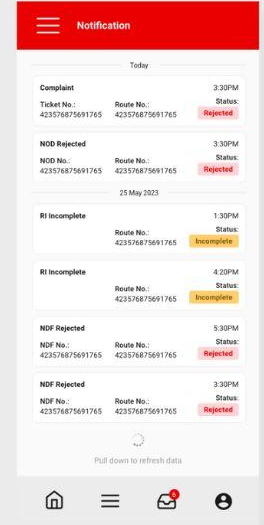

- **System Performance:** The old system faced performance challenges, leading to manual operations that caused delays and inefficiencies.
- **App Limitations:** Mobile app is outdated and only supports tablets.
- **Inspection Tracking:** Difficulty and inaccuracy in tracking and verifying road locations for inspections affecting weekly road maintenance reports.

Solution:

- **CRMIS:** Re-engineered the Centralised Road Management Information System to streamline road management, defect reporting and case management.
- **OE Mobile:** Rebuilt the Operation Executive Mobile App for more accurate real-time GPS virtual checkpoint tracking and new integration to Zendesk for seamless support escalation.
- **RTS:** New Revenue Tracking System for better governance and project revenue reporting.

Outcomes:

- **Increased Efficiency:** Faster and more reliable road maintenance and reporting.
- **Improved Tracking:** Enhanced accuracy with automatic defect location capture via the device.
- **Integrated Support:** Consolidated all defect reporting channels into a single workflow.
